

STATEMENT OF SUPPORT

FOR THE VALIDATION OF THE EVTECH RESOURCES

I fully acknowledge the significance and value of the **EVTECH resources** in enhancing the maintenance and safety skills for car technicians and increasing the supply, quality and relevance of VET provision in the automotive industry.

I endorse the necessity of the following skills for car technicians:

- Technical, digital and mechatronic skills, enabling them to keep up with EV related workplace requirements.
- Data analysis, ICT skills and technical knowledge on batteries and electronics.
- Skills required for EV repair/maintenance.
- Understanding and managing the complexity of EV's internal architecture to diagnose car problems.
- Management of EV gadgets, overview of the EV auto parts, their functions and interconnections.

I value the **EVTECH resources** because they enable my organization to:

- provide car technicians with a comprehensive blend of practical, technical, and safety skills crucial for their roles,
- elevate industry standards by bridging the gap between current employees' skills and emerging workplace requirements,
- establish occupational and educational standards for the sector and further enhance the attractiveness of the sector as a career choice.

I support that **EVTECH resources** enable the acquisition, assessment and testing of Electric Vehicles skills and competencies and I hereby acknowledge that my organisation is interested in using the **EVTECH resources** in order to support the advancement of EV workforce and the enhancement of maintenance operations.

This is not a legally binding document. I hereby consent to my personal data being processed by the EVTECH partnership for the purpose of supporting the EVTECH project. I agree to share my signed Statement of Support on the website: <https://evtech-project.eu/>
